L. W. Juilliard, candidate for County Clerk, paid Sonoma a visit last Thursday. He is the present incumbent, has served one term and has made a most efficient officer.

J. F. Farnsworth, representing Porter Bros., Chicago, extensive dealers in California fruits, is in town. He is contracting for the to-day grape crop of the valley.

The attention of wine men is called to the advertisement of cooperation for sale which appears under the head of "New To-day." The pipes, of which there are thirty, will average about 145 gallons each. They can be seen by applying to M. Mulder.

On last Friday afternoon the children of the primary department of our public school gave an entertainment to their parents and friends which was greatly enjoyed by all. The programme consisted of recitations, songs and tableaux. Much talent was displayed by the little ones.

There is deposited in the Sonoma Valley Bank \$250, donated by Mrs. Robt. C. Johnson of Buena Vista Park, for the purpose of beautifying our Plaza. This money could not be put to better use than to plant rapid growing trees of which there are many varieties which will take kindly to our soil and climate. If this be done, in a few years we will have one of the largest and finest parks of any interior town in the State.

Sam Agnew, a pioneer resident of this valley, upon the urgent request of many friends, has come out as an independent candidate for Roadmaster of Sonoma Township. Mr. Agnew, it is claimed, is an experienced road-builder and what he doesn't know about roads isn't worth knowing. Sam says if he is elected, and he has never yet been known to go back on his word, that he will act fair with every section of the township.

On Tuesday last a horse which was being driven by Miss Annie Prunty became restive and ran away. He tore madly down Napa street from the public school house building to Broadway, the young lady in the meantime maintaining her composure and pluckily holding on to the reins. Upon reaching the latter thoroughfare the frightened animal made a sharp turn around the corner, tipping the vehicle over and throwing Miss Prunty violently to the ground. The horse also slipped and fell and was secured. Fortunately the young lady escaped with a few cuts and minor bruises which were attended to by Dr. Vance.

H. C. Petray, candidate for School Superintendent, was in town last Saturday and Sunday, and while here made many friends. His supporters in this valley are not confined to any particular party. Singular to relate party lines, in so far as School Superintendent is concerned are almost completely obliterated in Sonoma Township. It is no uncommon thing to meet strong Democrats who favor Mrs. Martin, while Republicans by the score are for Mr. Petray. There is something about the latter that takes with the people. Any one could observe this during his short stay in Sonoma. Mr. Petray is the principal of the Santa Rosa High School. By his own endeavors he has worked himself up from a poor boy to the position of one of the foremost educators of Sonoma county. He is a Native Son, having been born and raised in this State.

A BEREFT MEETING.

The City Trustees Have a Warm Discussion on the Saloon Ordinance.

D. D. DAVISSON'S CONQUEST.

An Excited Trustee Goes for the City Marshal, the President of the Board and Everything Else in Sight.

The meeting of the City Trustees last Wednesday evening was better than a circus. The performance started in after the minutes of the previous meeting had been read by Clerk Breitenbach. Trustees Wagner and Weyl objected to that part which related to the application of R. D. Moore for a special liquor license and asked that it be stricken out. This occasioned a heated discussion between some of the members, but the objectionable paragraph in the minutes was finally killed, much to the disgust of the Clerk, who cast a look of withering scorn in the direction of the objecting members.

When the bill of Wm. New, for services as night watchman, was presented for payment it had about the same effect on Trustee Litzius as that of a red rag flouted in the face of a mad bull. He jumped to his feet and with a loud bellow objected to its payment on the grounds that the Board had no right to audit bills contracted by individual members. The excited Trustee, waxing warmer, charged on the City Marshal and President of the Board, and with a look of lofty disdain, tossed them high in the air with his rhetoric. He expatiated on law and order and asked in vehement language why the Trustees passed laws unless it was to see them enforced. This brought Trustee Weyl to his feet with a mild expostulation. Rash man! It was then that he, too, came in for the medicine which was being dealt out promiscuously to his fellow members by the irate Trustee, who, however, kept within parliamentary bounds and did not substitute abuse for argument. But his talk all went for naught, for upon the question being put as to whether New's bill should be paid, all the members present voted aye except the representative from Broadway, who in stentorian tones shouted NO! which made the few remaining hairs on the President's head stand on end and caused the building to fairly quake.

More Powell then addressed the Board in regard to the saloon ordinance and was followed by Herman Laux who spoke on the same subject. The latter was frequently interrupted and finally some half-dozen voices became entangled in the argument, and for a time it seemed as though bedlam itself had been turned loose. The President, however, finally succeeded in restoring order and the Board got down to business.

The Committee on Fire and Water rejected the fire hose from Arnett & Rivers and ordered that it be returned.

The following bills were approved and ordered paid: H. H. Granice, printing, \$14.10; L. Modini, cleaning fire apparatus, \$3.00; M. A. Flynn, cleaning hook and ladder truck, \$1.50; F. Breitenbach making assessment, \$51; G. W. Sparks, salary as Marshal, \$15.

The bill of Thos. Moss, assigned to G. S. Harris, was laid over. A petition was received from H. C. Calderwood and others asking that Jackson street be repaired and \$10 was donated for that purpose.

C. Aguilon's application for laying down water pipes from his artesian well to his wine cellar on First-street West was laid over in order to allow the Board to comply with the law before granting the franchise.

The petition of H. H. Granice and twenty-two others, praying for the building of a bridge across the creek on Second-street East, was laid over until the next meeting.

The application of G. S. Harris for a building on the corner of Napa and First-street West was also laid over.

D. D. Davison, President of the Pioneer Society, addressed the Board and asked that a small sum of money be donated toward repairing the Bear Flag pole on the Plaza. Dan was bland, suave and at his best. He wore a bouquet pour boutonniere in the lapel of his Prince Albert and a winning smile on his face. It was a case of love at first sight. He completely captivated the Board, and when the question was put to donate him \$12.50 every member yelled aye, and upon motion the Board stood adjourned.

Heavy Fruit Shipments East. Shellville, on the line of the Southern Pacific, is becoming quite an important fruit shipping point. J. H. Humphreys, the freight agent at that place, states that he shipped five carloads of fruit direct to Chicago last month, and at least thirty carloads will be forwarded the present month.

Mr. and Mrs. R. D. Moore have reopened the Union Hotel.

SONOMA ODD FELLOWS.

They Banquet their Napa Brethren.

The banquet given to a number of visiting brethren from Napa Lodge, No. 18, by the members of Sonoma Lodge, No. 23, I. O. O. F., at Union Hall, last Saturday evening, was one of the most pleasing and enjoyable affairs that has taken place in Sonoma for many months.

The committee having the affair in hand were brothers R. B. Lyon, M. F. Turley and W. F. Breit. Upon the arrival of the guests, some twenty-five in number, they repaired to Odd Fellows Hall, where they were warmly welcomed by the members of Sonoma Lodge. After the business of the Lodge had been transacted the work of the order was exemplified by the visiting Odd Fellows in a manner that elicited praise from their Sonoma brethren, after which all repaired to the banquet board at the Union, where an excellent collation awaited them. Two tables running the entire length of the large hall had been beautifully dressed with fruits, flowers and wines, which gave an air of refinement to the surroundings. Speeches and toasts were the order of the evening. H. C. Gesford of Napa, the first speaker, extolled the many virtues of Odd Fellowship in an eloquent ten minutes' speech which made those present proud of the order and its many deeds of charity. He was followed by H. C. Petray of Santa Rosa, Prof. Jas. R. Watson of Sonoma, S. I. Allen of Santa Rosa and many others.

Those present from Napa were as follows: Hon. H. C. Gesford, J. Jackle, Ed. Manasse, W. H. Atkinson, Geo. Gardner, Robt. Wing, J. Otto, M. Richardson, D. S. Kysar, Chas. Welti, W. H. Gosling, C. Pearce, A. W. Weaver, Lyman Chapman, Wm. Stewart, J. Fine, W. K. Aldersey, M. J. Crow, A. S. Blank, H. J. Manasse, Emanuel Manasse, J. Mitchell and B. L. Tollman.

The Santa Rosa Odd Fellows were represented by S. I. Allen, H. C. Petray and Louis Breitenbach. Among those present from Sonoma Lodge were R. B. Lyon, Dr. H. H. Davis, M. Mulder, W. F. Breit, John Ravie, Harry Fischer, M. Marti, Geo. Engler, H. Granice, Judge Cheney, Prof. Watson, Jas. H. Albertson, D. H. Twigg, John Wagner, P. H. Vollmar, Chris. H. Wise, W. P. Wilson, John Miller, Peter Hein, John Gottensburg, J. G. Marcy, E. Perkins, W. Trudgen, B. P. Norris, Blackie, Wm. Stone, V. Belotti, H. C. Lutgeus, G. H. Cornelius, John Tivnen, Samuel Stacy.

Grape Picking. The rains of the past week has had a tendency to hurry up our vineyardists in gathering the grape crop. Last Wednesday, after three or four days of cloudy and showery weather, it cleared up, since which time large gangs of grape-pickers can be seen in many of the vineyards. The early rains of last season destroyed the entire crop in many of our vineyards, while all suffered more or less. With last season's experience so vividly impressed on the minds of the grape-growers it is safe to assert that with favorable weather the next two weeks almost the entire crop of wine and table grapes will have been gathered.

For Road Overseer. Wm. W. Ellis, a popular Native Son and a young man who has had considerable experience in building and repairing roads, announces himself in these columns as an independent candidate for Roadmaster of this township. He resides in the extreme eastern limits of the township but his support is not confined to any particular section of the valley. It is hardly necessary for us to state that if elected Mr. Ellis will make a good Road Overseer.

The Grand Jury. This body which was in session last week has adjourned for two weeks without making a report. It is reported that indictments have been found against three parties in this place for setting fire to the railroad buildings some months since. After the Grand Jury has completed its labors and made its report the same will be published in full in these columns.

Grand View Sold. John S. Enos and wife have sold their beautiful home, Grand View, to Thos. Erskine and others. The consideration named in the deed is \$20,000. The property is situated one mile northwest of Sonoma and consists of 163 acres and improvements.

The Judgeship. The popularity of Judge S. K. Dougherty, the Republican nominee for Superior Judge, is really surprising. Democrats and Republicans throughout the county are supporting him alike.

You cannot feel well without a clear head, and for this take Simmons Liver Regulator.

Shaken Out of Gear.

By malarial disease, the human machinery cannot half perform its office. Digestion, secretion, evacuation and disordered, the blood becomes watery, the nerves feeble, the countenance ghastly, sleep disturbed and appetite capricious. Terrible is this disease, fell its consequences. There is, however, a known antidote to the malarial poison, and a certain safeguard against it. In malarial regions of South and West, in South America, Guatemala and on the isthmus of Panama, as well as in transmarine countries where the scourge exists, this inimitable preventive and remedy, Hostetter's Stomach Bitters, has, during the past thirty-five years, been constantly widening the area of its usefulness, and demonstrating its sovereign value. Liver complaint, dyspepsia, constipation, kidney trouble, rheumatism and debility are all remedied by it.
